Director Harper distributed the monthly credit card statements and the small check register. She reviewed the revenue and expenditure. On the revenue report, she noted that the Library received a property tax payment. Other incomes were overall on target.

On the expenditure report, Ms. Harper noted that Group Health under Employee Benefits will crest over this year. The City negotiates the health contracts after the Library approves the budget and

there was an increase this year. Under Contractual Services, Telephone is cresting over. A credit is expected within the next month or two.

In the Director's Report, Ms. Harper stated that the Library would post inspirational lawn signs again this year at the annual turkey trot. This is part of the Library's campaign to participate in community events with a passive presence.

Thirty-nine cakes pans checked out last month. The increase is due in part to the great display in the Kids' Library that showcased the pans and paired them with cookbooks. Patrons are discovering new items and ways to use the Library.

Director Harper stated that she is working with Aurora University to place a Social Work Intern at the Library. The internship position will be unpaid but will help the student gain experience. We're hoping that this will also be a service to our patrons.

In the President's Report, Ms. Baker talked about the Veteran's Storytelling Library program that was held at the American Legion. She stated that the program was very well attended and thanked Program Coordinator, Kim Calkins. President Baker also stated that the 2018 budget was presented to the City Council on November 20.

The next order of New Business was the approval of FileStar Software. Monica Iacono moved:

THEREFORE BE IT RESOLVED that the Administration Department is authorized to purchase FileStar software at a cost not to exceed \$3,255.

Director Harper explained that the Library would like to begin the process of having many of the paper files scanned and stored electronically. The proposal is from a local company who did a similar project for the City a few years ago. The Library is required by law to keep many of these files forever. It will be good to free up the physical space that these files occupy and also to have a system for easily accessing them should we need to meet a FOIA request. The first step in the process is to have the FileStar software installed. Ingrid Becton seconded the motion. The motion carried.

There being no Other Business, the meeting was adjourned at 8:15 PM.
