

APPROVAL of Birthday Holiday for Staff

In an effort to provide staff with a low impact work perk, we would like the Board to approve a birthday holiday for staff. This means that every staff member would be able to take a paid day off during the month of his/her birthday. Staff members would be paid for the hours they would normally work during their normal shift. This perk would be available to every staff member unlike holiday pay and vacation pay, which are only available to benefitted employees.
