A Note to Parents and Other Adults:
Books have been placed on this list based on the reading level determined by the publisher, reviewers, or by our librarians. Don't be misled by the number of pages a book has. Sometimes books with more pages have less text, because at this level many books contain full-page illustrations.

For the most part, we have included only one book per author on these lists. If your child enjoys a particular book, he might also enjoy other books by the same author, especially books in the same series.

If you would like to know the Lexile reading level of any of these books, or if you would like further reading recommendations or help finding these books, please talk to a librarian at the Help Desk. The Lexile range for 2nd grade is 300L to 500L. Happy Reading!

Young readers can use the 5 finger test to check their understanding of a book:

Open the book to the middle and choose a page of text to read. Read the page (aloud if possible). Hold up one finger for every word you do not know or cannot pronounce.

No fingers:

This book may be too easy for you.

This book is o.k. for you.

Still good.

Could be a bit hard for you to understand.

May be difficult to read and understand.

We suggest you choose another book.
