ARTWORK FOR GALLERY WALL IN ADS

The Elmhurst Art Museum has some works from local artists in their collection that aren't being used. They offered to "loan" them to us for the gallery wall located next to the fireplace. The painting that we would like to display now is a triptych by Eleanor King Hookham. Ms. Hookham was an Elmhurst resident and one of the founding members of the Art Museum. The scale of the painting will fit the wall and the colors should complement our decorating scheme.
