

GOOGLE PHOTOS

What is Google Photos?

Google photos is a free and unlimited cloud-based photo archive. Once registered, all photos are organized and labeled automatically, so you can find them fast and share them how you like.

How can I get Google Photos?

Download the app for Apple or Android phones, or visit photos.google.com on a computer. You will need—

- Google (Gmail) account login
- Google account password

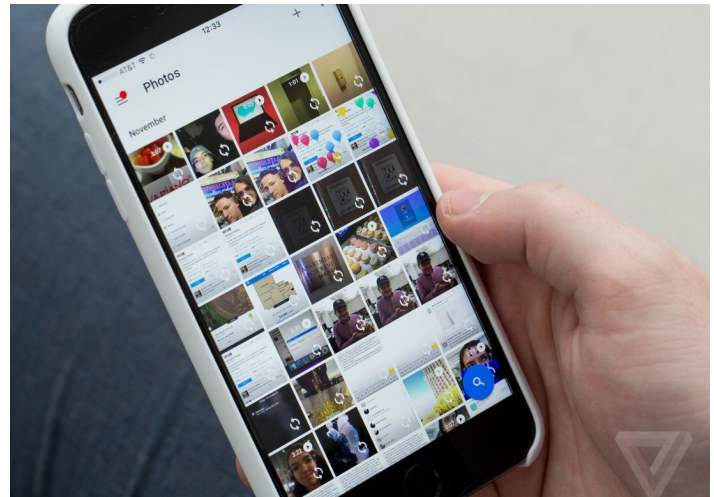

Can I use Google Photos without a Google account?

No, to use Google Photos you *must* have an account set up.

Is it really free?

Yes, however—

- Photos are limited to 16 megapixels
- Videos are limited to 1080p HD
- Photos of higher quality can be uploaded in Google photos, but it will use the 15 GB of given Google Drive storage

Google Photo Books

Similar to Shutterfly or Walgreens, Google allows users to create beautiful photo books. The process works in tandem with Google Photos allowing the user an easy and affordable way to share life's best moments.
