

PAYPAL FOR BUSINESS

What makes PayPal for business different than PayPal?

- ◆ Instead of sending payments (while you can still do this), you can now also request and take payments.
- ◆ Incorporate PayPal Business into your business for easier customer check out.
- ◆ Easily issue invoices and returns.

What are the benefits?

- ◆ If you have an online business, you can add your PayPal business account to your checkout.
- ◆ Your customers can pay with their PayPal account and all cards associated with their PayPal account.
- ◆ Option to download the PayPal Here app, and buy card readers for your devices to accept payment.

- ◆ Can be accessed on **paypal.com** or using the **PayPal app** (iOS and Android)
- ◆ Start collecting payments via PayPal, credit and debit cards.
- ◆ Set up a virtual terminal to accept card payments anywhere you have a smart device and internet access.
- ◆ Take payments on your website, app, in person, in store, by email or phone.
- ◆ Transfer customer payments to your bank account or PayPal balance with ease.
- ◆ Straightforward transaction fees.
- ◆ Have the ability to apply flexible payment plans or even apply for a business loan.
